

YOUNG TAOIST

THE SEQUEL

The introduction of my alter ego and EP *Young Taoist* was presented to the public on February 3, 2023 along with a series of singles in which I give off more of a dark character with hurt and selfish intentions. Ignorant and wild yet comfortable within his own actions.

His obsession for happiness keeps him in a sad world.

A mind mixed with concepts and worldviews. a need for more clarity, more understanding. - *Revilatiun*

MMII

THE ALBUM

MMII is project introduces the positive side in the perspective of Young Taoist.

With an increase of self-awareness and acknowledgement he reflects on his past actions, owning up to who he was followed by a substantial motivation to make a change for the better.

THE ORIGIN

In 2022 Taoism was the focus. My motive was finding ways to exercise the idea in my everyday life. The practice gave me a wide perspective on self, human nature and balance. *Young Taoist* is used to represent the wuwei and express a story, give a message, inspire. - *Revilatiun*
